NATURE INSPIRED VERTICAL ATMOSPHERE

ABOUT

We are well experienced in all classifications of Greenwall. We analyze the site thoroughly & propose the right and suitable plants with grow light for the particular type of site as seeing the climate & sunlight reach of the particular concern site. We Design, Evolve & Sustain the site with periodic site visits.

We provide a comprehensive range of vertical gardening systems, plants suitable for the site & as per the consumer's requirements. We provide suitable consultation always. We also deliver refurbished Greenwall services if that site is designed by our team. Our services are provided all over India.

EXPERIENCE THE CONNECTION WITH NATURE

INDOOR GREENWALLS | OUTDOOR GREENWALLS | SEMI-SHADE GREENWALLS

The unique hexagon shape of the pots allows for perfect nesting. This ensures minimal gaps between the plants.

The system is controlled by a simple pump and a drip irrigation system. The water is collected in the tanks and redistributed throughout the Greenwall.

BENEFITS

Boosts employee morale and happiness

Reduces stress in the workplace and increases wellbeing

Cleans interior spaces by removing harmful toxins

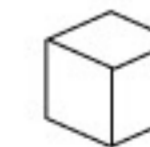

Acts as a sound proofing barrier

Insulates and cools buildings and rooms

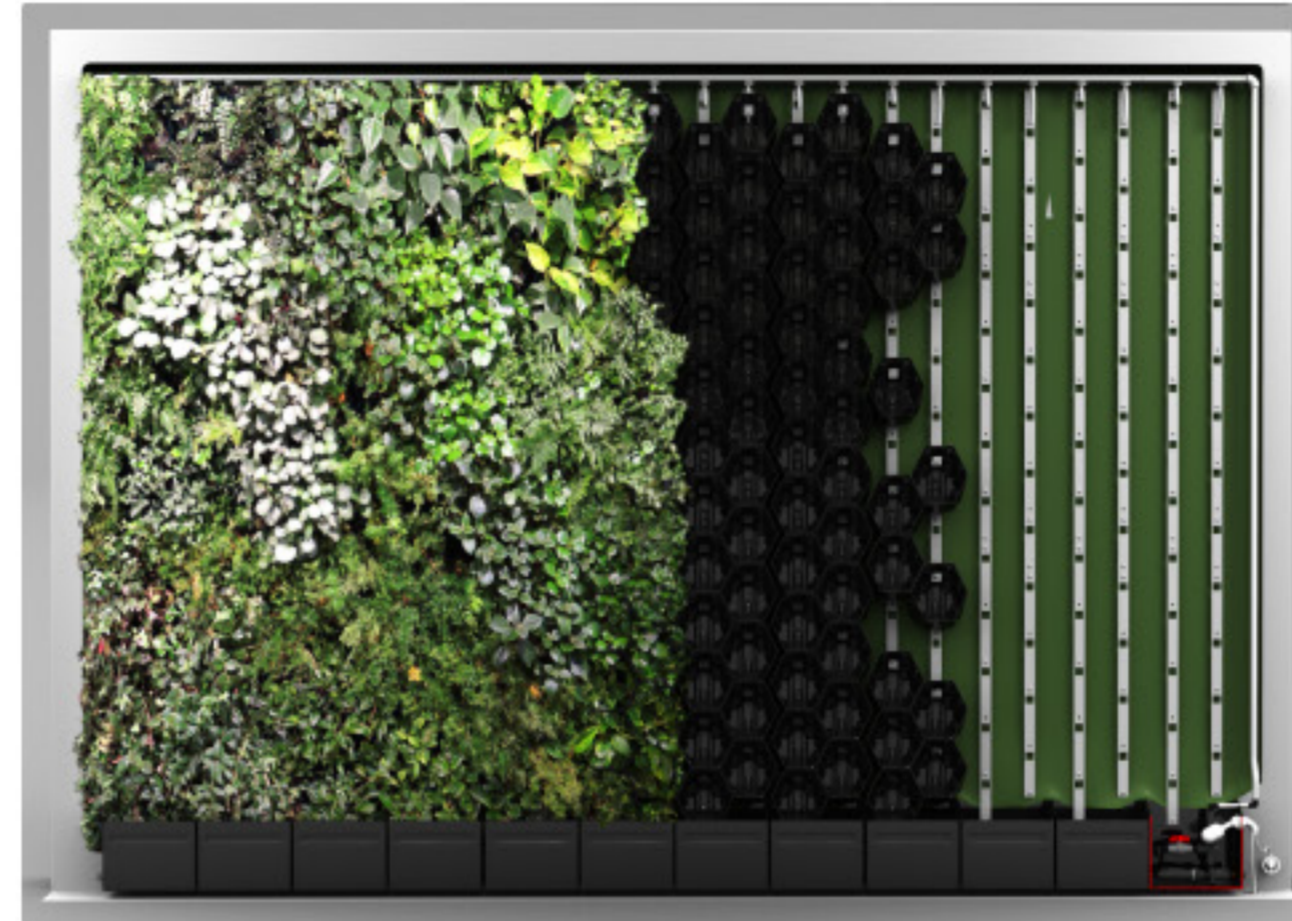

Adds vertical space to any garden

Makes small spaces feel larger

Offer protection from the elements acting as a barrier on a building

Our system is modular and scalable. From a small 20 pot, a full scale commercial project, the Gamlaa system can adapt to meet the requirements.

FEATURES

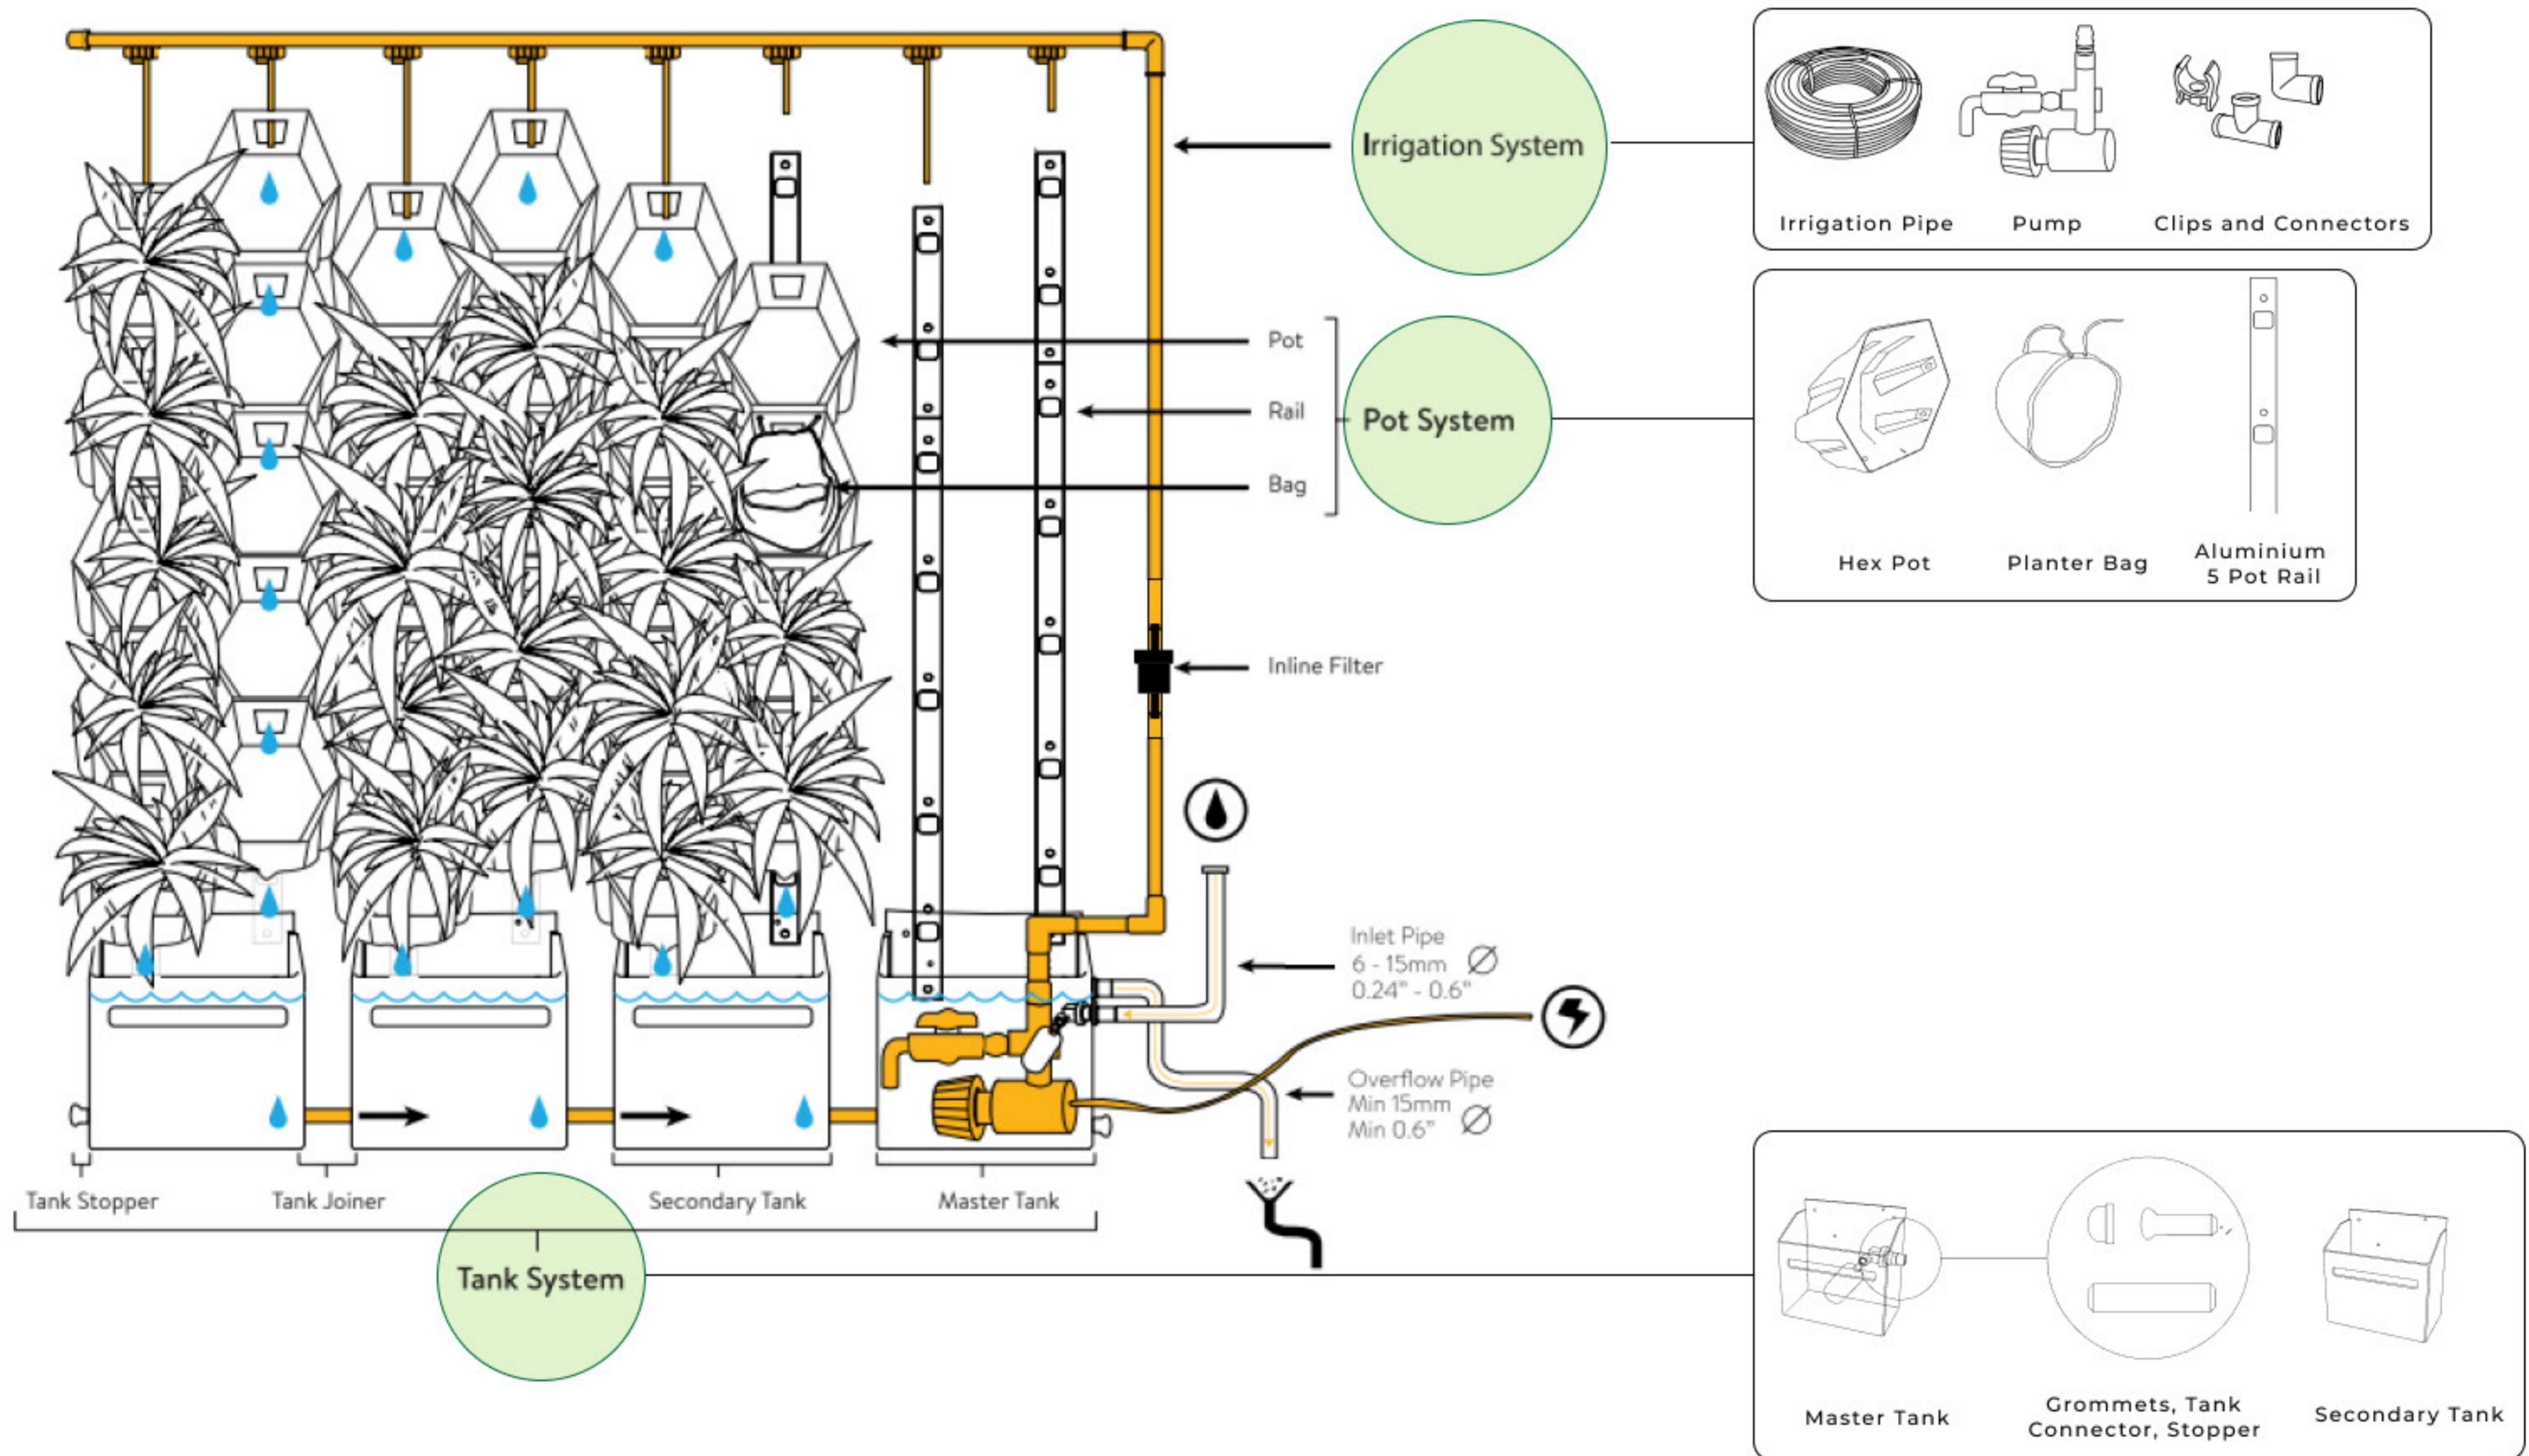

“CLIP ON, CLIP OFF” - TO MAINTAIN THE GREENWALL

The simple clip-on and off pots are easily swapped, so changing the wall's design or replacing plants is a quick, painless task.

THREE SYSTEMS, ONE SMART DESIGN

Gamlaa has engineered three efficient systems into one smart design to give you a fully-inclusive universal solution to your greenwall requirements.
